

Congratulations

You Have Finally Found Some Products
That You Have Probably Spent Years
Searching For.

"Everyone Will ENVY The Results"

*An ENVIROMENTALLY FRIENDLY
ALTERNATIVE FOR WATER*

1 Qt of ENVY will wash, wax, polish & seal on
average 12 to 16 autos and save over 2,000
gallons of water plus saves our earth's water
supplies from contamination

First - What's out there ??

Other Polishes - Most all polishes contain
3 ½ to 41% Petroleum Distillates. The
higher the level of Petroleum Distillates the
more you need to stay away from Plastics,
Vinyls or Rubbers. It can Dry, Yellow +
Crack them.

Many products contain Silicones or Teflons.
Some Silicones or Teflons depending on
how they are derived, can be absorbed by
your paint or vehicle's surface. When
absorbed it can make any future Body Work
or Repairs Difficult or in some cases even
Impossible.

Other Metal Polishes - Many metal
polishes contain Acids (they recommend
rubber gloves be used) Acids can Etch,
Stain, Streak or Spot many surfaces. Most
metal polishes contain Abrasives, such as
Pumice or Volcanic Ash. Abrasives can
Scour, Scratch or Wear some surfaces.

**After over 12 ½ Years of Testing
Thousands and Thousands of
Products from All Over the World
*This is What We Have Found***

A Vehicle + Surface Polish - That
Contains: NO Silicones - NO Teflons - NO
Abrasives - and NO Petroleum Distillates.
It does contain: UV Protectants, Canauba
Wax & Kaolin Clay.

A Metal Polish - That Contains: NO Acids
+ NO Harsh Abrasives. It Cleans and
Polishes in Seconds! Then Seals to Preserve
That Unbelievable! Shine for Months +
Months - on Copper, Brass, Nickel, Stainless,
Aluminum, Sterling and More !

A Tire Treatment - That Contains: Just 1
Drop of Petroleum Distillates per Gallon,
PLUS UV Protectants.

*Then we recently changed the names of
all products to **"ENVY"***

Can Be Used On: Cars, Boats, Cycles,
RVs, Snowmobiles, Bicycles, Jet Skis,
Airplanes, Yachts or your Classic, Vintage or
Antique and more... Reduces friction on Skis,
Sleds Etc. Don't Forget inside your Home or
RV, do your Tub, Toilet, Shower, Appliances,
Counter Tops and More. When used on
Windshields, water will just bead up and roll off
virtually eliminating the need to use
windshield wipers, *Truly amazing !!*
ENVY also helps prevent premature interior
fading. Also great for a quick ShoeShine, to
clean Eyewear, Safety Shields, Optics, TVs
and Monitor Screens. ENVY repels dust and
fingerprints, minimizes small scratches and
swirl marks and makes them optically clearer.

Race Drivers, Athletes, and Fire Fighters will
appreciate the clarity and anti-static that keeps
Helmet Shields clear, clean, and dust free
much longer. Great for boat owners, ENVY
also protects against algae and barnacles.

If removed while still damp ENVY may be
used on rubber and vinyl trim & plastic too !
Hey! help Restore those hazy, yellowing,
faded or milky looking headlights, bug
deflectors, plexi-glass shields, lenses etc.

**Do You Want to See What ENVY
Vehicle Polish Actually Does for You**

TRY THIS

First Polish 1/2 of the Front of your Vehicle
"Twice" (The Passenger Side Only)
You can do what ever you want to the rest of
the vehicle, but DO NOT do the drivers side
Front. Now over the next couple weeks
observe the front end.

How **Clear** the windshield is

(passenger side) **Bugs** - amount of spatter +
ease of wiping off, (with damp cloth)

Rain - windshield clarity + water run off,
Smoothness of Surface, The **Shine** etc.
